MEMORANDUM FOR: 

SUBJECT : Medical Supply Procedure

1. We encounter unusual delay in acquiring re-supply items of medications and medical equipment.

2. At present, requisitions are sent to our Materiel Division. They then must be sent to a supply office for release, then are returned here, and re-routed to another section. This procedure under normal circumstances requires over two weeks. To acquire an emergency item, these papers have to be hand-carried to about three different places at great distances apart here in town. This is a waste of time and is a strain in such a small section.

3. It is requested that a more expeditious means be established for our supply procedures.
